

## Spring 2022

January 18, 2022 | 4:30 pm - 6:00 pm | 1030 Jenkins Nanovic Halls

### **The Global Significance of the Sino-Indian Rivalry**

Sumit Ganguly

March 1, 2022 | 4:30 pm - 6:00 pm | 1030 Jenkins Nanovic Halls

### **Lest the Stars Totter: Outer Space in the National Security Context**

Major Jeremy Grunert

March 22, 2022 | 4:30 pm - 6:00 pm

### **NDISC Roundtable**

Fairchild engineer Gordon Moore famously noted in 1965 that the pace of semiconductor power was increasing exponentially and was revolutionizing the semiconductor industry. It is clear that Moore's Law applies more generally to the increasingly rapid development of technology in the modern world, especially in the weapons and national security realm. What is less clear is whether our ethical and moral frameworks for the use of military force, formulated gradually over hundreds of years in a very different and less dynamic technological environment, are keeping pace with these revolutionary developments today? This NDISC roundtable brings together some of the leading thinkers about the ethics of new weapons technology to help us think smartly about the ethics of new weapons technologies.

March 29, 2022 | 4:30 pm - 6:00 pm

### **The Progressive Equity in the Restraint Coalition**

Matthew Duss

April 19, 2022 | 4:30 pm - 6:00 pm | 1030 Jenkins Nanovic Halls

### **Madman Theory: The Causes and Effects of Reputations for Madness in**

## **International Politics**

Roseanne McManus

April 26, 2022 | 4:30 pm - 6:00 pm | 1050 Jenkins Nanovic Halls

## **Climate Wars**

Neta Crawford
